

Dupree Innovations LLC

COMPANY OVERVIEW

Dupree Innovations, LLC is an established 8-year SAMS/SBA registered SDVOSB LLC in good standing. We are excited to introduce our featured NuLIDS Dry Eye system to the VA Medical system and the federal government through the GSA delegated VA FSS 6511A medical device supply schedule (SIN A-38). This simple low-cost Class 1 medical device will more readily reach our veterans through this streamlined acquisition process. Our NuLIDS system is a low-cost, low-maintenance, 3 – 4 minute treatment to provide in-office non-chemical dry eye mitigation and prevention that is presently not available in the VA system. Present VA alternative solutions are more expensive, time intensive, chemical-based solutions that treat the symptoms and not the root cause of dry eye related conditions. The low cost of the system will allow VA feasibly funded daily home care devices for all diagnosed veterans. We have centered our resources around being the contracting avenue to provide veterans with a growing selection of small business created low-cost solutions with rapid distribution capability.

OUR CREDENTIALS

CORE COMPETENCIES

FEDERAL CONTRACTING

- Proposals for the specific needs of the government
- Continuous process improvement embedded
- Versed in the VA FSS, and varied streamlined tools
- Strategic long term system integration focus

FEDERAL HEALTH SYSTEM

- Knowledgeable in the VA product review process (CPRC)
- Focused on cross FHA solutions DOD-wide
- As an SDVOSB, experiential insight to VHA and MHS care
- Driven to provide quality VA care equivalent to private practice

FEATURED PRODUCT - NuLIDS

- Comprehensive Dry Eye Care
- In-Office and At-Home System
- **EFFECTIVE:** Improves in days
- **FAST:** Treatment in 2-4 minutes
- **HYGIENE:** Removes biofilm & scurf
- **COST-EFFECTIVE:** Low-cost system
- **STREAMLINED:** Procurements through the standing VA FSS -> GSA

DIFFERENTIATORS

- **Clinically Proven and Doctor-Developed:** The NuLids system was developed by a leading corneal specialist and is backed by scientific evidence and clinical use, providing veterans with a reliable, physician-endorsed treatment option.
- **Effective and Rapid Treatment:** The NuLIDS PRO system completes a treatment in just 2 minutes, enabling VA eye care staff to increase patient throughput and improve veteran access to care.
- **Affordable, Convenient At-Home Care:** The NuLIDS at Home device offers veterans an affordable and easy-to-use option for daily eyelid hygiene, reducing the long-term costs of managing dry eye and minimizing the need for over the counter or prescription eye drops.
- **Veteran-Centric Solutions:** As a Service-Disabled Veteran-Owned Business, Dupree Innovations is deeply committed to providing fellow veterans with high-quality medical solutions that address their unique needs and improve their quality of life.

PAST PERFORMANCE

- Since 2017, provided contract services and products for the VA System using Continuous Process Improvement (CPI) practices throughout the acquisition process while embedding CPI for institutionally stable products and services
- Long Beach, CA VA Medical Center interior construction projects
- Administered Multi-Contractor DOD construction projects in forward combat zones for 3 years
- Business Consulting – Process Improvement for Local small to medium businesses
- NuLIDS has 30,000 recurring customers including nation-wide commercial hospitals and clinics
- NuLIDS continuously has refined product delivery for over 8 years through industry tested service
